PROFESSIONAL SUMMARY

Motivated and detail-oriented Full Stack Developer (B.Tech 2026) seeking an entry-level SDE-1 position. Experienced in Java, Spring Boot, React.js, and MySQL through internship and project work. Strong analytical skills, adaptability, and passion for problem-solving in collaborative team environments.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Bootstrap 5

Backend: Java, Spring Boot, JDBC, OOP Principles, CRUD Operations

Database: MySQL, PostgreSQL, SQL, MySQL Workbench

Tools: Eclipse, IntelliJ IDEA, Cursor, VS Code, Postman, Git, GitHub

PROFESSIONAL EXPERIENCE

Software Development Intern | KodNest Technologies — Bengaluru, Karnataka

Jan 2025 – Mar 2025

- Gained practical expertise in Java, MySQL, frontend technologies, and manual testing through end-to-end project development.
- Contributed to both coding and test case creation, improving proficiency in industry-standard software development processes.
- Collaborated with experienced professionals and received mentorship that deepened understanding of SDLC best practices.

PROJECT EXPERIENCE

Dynamic AES Encryption & Blockchain Key Management for Cloud Data Security

- Developed a responsive user interface for secure cloud data management with user authentication and file upload/download functionality.
- Implemented real-time visualization of encryption status and integrated frontend components with backend APIs using AES encryption.
- Utilized blockchain-based key management techniques to enhance overall data security in a cloud environment.

Employee Management System

- Engineered a full-featured Employee Management System with CRUD operations, dynamic search, and robust authentication.
- Built a responsive frontend using React.js with Redux for state management and developed backend APIs with Spring Boot, JDBC, and MySQL as the persistent database layer.
- Managed source code and version control using GitHub, ensuring clean commit history and collaborative workflow.
- Delivered an effective, scalable solution for managing employee records and organizational data.

TaskMate – Task Management Application

- Developed a full-stack task management application enabling users to create, assign, track, and complete tasks with priority levels and due date management.
- Built an interactive React.js frontend with Redux for global state management, featuring real-time task status updates, filtering, and a responsive dashboard UI.
- Implemented backend APIs using Spring Boot and JDBC for persistent task storage in MySQL, with user authentication and role-based access control.
- Maintained project codebase on GitHub with structured branching and commit history for clean version control.

ACHIEVEMENTS & CERTIFICATIONS

Full Stack Java

SkillDzire Technologies, Hyderabad — Jul 2025

Application Developer – Web & Mobile

Rooman Technologies Pvt. Ltd, Bangalore — Jul 2025

Fundamentals of Java Programming

Coursera (On-site) — Aug 2025

Basics of Python

Infosys Springboard (On-site) — Jun 2025

Web Development

Cognifyz Technologies, Bangalore — Jun 2025

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science

Expected: 2026

Mother Theresa Institute of Engineering and Technology, Palamaner, Andhra Pradesh • CGPA: 7.4

12th Grade – Intermediate

2022

Theertham Krishnaya Chetty Junior College, Palamaner, Chittoor District • 83.6%

10th Grade – Secondary School

2020

Govt High School, Peddapanjani, Chittoor District • 90%
